Education

Vishwakarma University <i>B. Tech. in Computer Engineering, Business Analytics - 7.61 CGPA</i>	Pune, Maharashtra May. 2020 – May 2024
D.S. High-School <i>(HSC) - Science Stream - 83.08%</i>	Bhusawal, Maharashtra 2020
B.G.S.V. High-School <i>(SSC) - 83.40%</i>	Jalgaon, Maharashtra 2018

Projects

TechSphere E-Commerce Sales Analysis | [\(GitHub\)](#) Excel, BigQuery (SQL), Tableau, Data Visualization

- Analyzed 108K+ e-commerce transactions using BigQuery SQL and Excel to uncover revenue, product, customer, and regional sales trends.
- Built Tableau dashboards with 10+ KPIs to track sales performance, marketing effectiveness, refunds, and geographic insights.
- Delivered data-driven recommendations that identified high-growth products and profitable market segments for inventory and marketing optimization.

Medicare Part D Prescription Drug Analysis | [\(GitHub\)](#) SQL, Excel, Tableau, Healthcare Analytics

- Examined Medicare Part D prescription datasets using SQL to identify spending trends, utilization patterns, and provider-level variations.
- Created executive dashboards featuring 10+ KPIs for monitoring healthcare costs, prescription volumes, and beneficiary utilization.
- Delivered data-driven recommendations that highlighted cost-saving opportunities and supported evidence-based healthcare decision-making.

Blinkit Analysis | [\(GitHub\)](#) MS Excel (Advanced Formulas, Pivot Tables, Slicers), Data Cleaning, Business Intelligence

- Engineered an Excel BI dashboard tracking \$1.2M across 8.5K+ SKUs; found regular fat items drive 64.6% of revenue and optimized regional inventory strategies.

Professional Experience

Data Science Trainee – (Certificate) <i>Newton School</i>	July 2025 – Present
Completed 500+ hours of Data & Business Analytics training, solved 100+ analytical challenges, collaborated with industry experts on real-world business problems, and continue advancing through ongoing hands-on projects and mentorship.	

Technical Skills

Languages: Python, SQL, R, C++, HTML, CSS
Libraries & Frameworks: NumPy, Pandas, Matplotlib, Seaborn, Plotly, Streamlit, Scikit-Learn, TensorFlow, XGBoost
Databases & BI Tools: MySQL, PostgreSQL, SSMS, Power BI, Microsoft Fabric, Tableau, Excel, Google Sheets
Cloud & Environments: Git, GitHub, AWS S3, Jupyter Notebook, Google Colab, Conda
AI & Automation: Generative AI, LLMs, Prompt Engineering, AI-Assisted Analytics, ChatGPT, Claude, Gemini, Cursor AI, Gamma
Core Competencies: Data Analysis, Data Cleaning, Data Wrangling, Statistical Analysis, Probability, Exploratory Data Analysis (EDA), Data Visualization, Dashboard Development, Business Intelligence, SQL Analytics, KPI Reporting, Machine Learning, Predictive Modeling

Certifications

- HackerRank SQL (Advanced)** ([view certificate](#))
- Newton School - Data Analyst** ([view certificate](#))
- JPMorgan Chase & Co. Quantitative Research Virtual Experience Program on Forage** ([view certificate](#))
